

X2 EdiJET

I N K C U P S

X2 EdiJET

TAKING FOOD DECORATION TO A WHOLE NEW LEVEL

The X2 is an industrial, high-speed flatbed inkjet printer. Now retrofitted with an edible ink delivery system. Supporting uni- or bi-directional CMYK printing, the X2 EdiJET is the perfect choice for single or multi-color prints on any flat edible products.

The X2 EdiJET contains all the high quality components of its counterpart, the X2. Equipped with a print area of 20" x 24" and high-resolution print heads, the X2 delivers vivid color and fine detail, while integrating seamlessly with the finest color management and RIP software on the market today.

STANDARD FEATURES

INK SYSTEM

- CMYK edible inks
- Automatic ink supply system
- 1 liter bulk ink system (per color)
- Active negative pressure system
- Automatic print head voltage and temperature control

PRINT SYSTEM

- Industrial DOD piezo electric grayscale print heads
