

DECORATING METHODS

AUXILIARY SUPPLIES

Standard Features

- c Servo-driven, quick-change tooling fixture
- c Adjustable angled tooling
- c Automatic cylinder height adjust
- c Automatic intelligent diameter measurement
- c Helix® software package

Part Diameter	2" - 4.5" at 7° 2" - 3.8" at 8.5°
Part Length	3" - 12"
Maximum Print Length	4.25" 8.66" with an additional UV lamp
Maximum Taper Angle	7° (8.5° optional)
Print Modes	4 pass • 6 pass • 8 pass • 12 pass • 16 pass • 24 pass
Maximum Resolution	1200dpi x 1200dpi
Lamp Style	1 or 2 UVLED
Ink Configuration	CMYKWW + Varnish CMYKLCLMLKWW + Varnish
Ink Type	UV/LED
Bulk Ink System	3 Liters

MIRROR PRINT

Mirror print is a printing feature specifically for clear drinkware items. The graphic is printed on the product in reverse so the white layer is facing out and then the graphic is printed again but with the white facing in. The outcome is a design that can be seen from all angles.

TONE-ON-TONE

Tone-on-tone places a varnish-only layer of ink on your product. Each substrate will yield a different look. Glass items with the tone-on-tone printing feature look embossed, whereas on stainless or coated metals, the color pops. Use this method on any item.

PHOTOREALISTIC

The newest addition to the Helix family is the Helix HI-FI. This machine has the unique ability to print photorealistic images using the standard CMYK plus light cyan, light magenta and light black on straight and conical items. These additional colors allow our machine to match skin tones.

INKS & PRIMERS

Our inkjet inks adhere to a number of substrates as well as offer unique qualities such as edibility, flexibility and FDA compliance.

We offer a variety of primers because we understand each part is unique. Adhesion testing is available upon request.

- Glass
- Plastic
- Coated metals
- Stainless steel

SPARE PARTS & TOOLING

We keep most spare parts for our digital equipment in-house and ready to ship. In order to reduce machine downtime, we typically ship within 24 hours.

Need custom tooling for your printing application? We can make it for you! Send a few of your product and we will create a fixture that works for your production line.

AUXILIARY MACHINES

In addition to our machines, inks and solvents, we offer auxiliary machines to assist with further adhesion requirements and primer application. Our auxiliary machines range from flame-treating equipment to primer spraying devices.

BENEFITS OF THE HELIX

PERSONALIZATION

Great for samples or personalized items.

PROGRAMMABLE TILT

Easily adjust the fixture's angle to print on tapers.

CORONA TREATMENT

Increases adhesion and removes particles.

POPULAR APPLICATIONS:

GLASSWARE | PLASTIC SPORTS BOTTLES | STAINLESS TUMBLERS | CANDLES | COATED METALS
