

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Regulation (EU) No. 453/2010 - **United Kingdom (UK)**

# SAFETY DATA SHEET

## GL PRIMER

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1 Product identifier

Product no. : 1423758  
Product name : GL PRIMER

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses: Printing inks, coatings, toners, and related materials

Uses advised against: Not Available

#### 1.3 Details of the supplier of the safety data sheet

Inkcups Corporation  
310 Andover St.  
Danvers  
Massachusetts  
01923  
United States

#### 1.4 Emergency telephone number

24 Hour Emergency Phone : 800.535.5053 INFOTRAC 24 Hour Spill and Emergency (+1 352 323 3500 outside of North America)

#### National advisory body/Poison Center

Telephone number : Not available.  
Hours of operation : Not available.  
Information limitations : Not available.

### SECTION 2: Hazards identification

#### 2.1 Classification of the substance or mixture

Product definition : Mixture

#### Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

Flam. Liq. 2, H225  
Skin Corr./Irrit. 2, H315  
Eye Dam./Irrit. 2, H319

The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.

## 2.2 Label elements

|                          |   |   |
|--------------------------|---|---|
| <b>Hazard pictograms</b> | : |                |
| <b>Signal word</b>       | : | Danger  |
| <b>Hazard statements</b> | : | Highly flammable liquid and vapor.<br>Causes serious eye irritation.<br>Causes skin irritation. |

## Precautionary statements

|   |   |  |
|---|---|--|
| <b>General</b>  | : | Read label before use.   |
| <b>Prevention</b>   | : | Wear protective gloves. Wear eye or face protection. Keep away from heat, sparks, open flames and hot surfaces. - No smoking. Use explosion-proof electrical, ventilating, lighting and all material-handling equipment. |
| <b>Response</b>   | : | IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower.   |
| <b>Storage</b>  | : | Keep cool.   |
| <b>Disposal</b>   | : | Dispose of contents and container in accordance with all local, regional, national and international regulations.  |
| <b>Hazardous ingredients</b>  | : | 2-Propenoic acid, 3-(trimethoxysilyl)propyl ester  |
| <b>Supplemental label elements</b>  | : | Not applicable.  |
| <b>Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles</b> | : | Not applicable.  |

## Special packaging requirements

|  |   |                  |
|--|---|------------------|
| <b>Containers to be fitted with child-resistant fastenings</b> | : | Not applicable.  |
| <b>Tactile warning of danger</b>                               | : | Yes, applicable. |

## 2.3 Other hazards

|   |   |                 |
|---|---|-----------------|
| <b>Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII</b>  | : | Not applicable. |
| <b>Substance meets the criteria for vPvB according to Regulation (EC) No. 1907/2006, Annex XIII</b> | : | Not applicable. |
| <b>Other hazards which do not result in classification</b>  | : | None known.     |

## SECTION 3: Composition/information on ingredients

**3.1 Substances** : Not applicable

**3.2 Mixtures** : Mixture

| Product/ingredient name                           | Identifiers  | %          | Classification  | Type   |
|---|--|------------|---|--------|
|   |  |            | Regulation (EC) No. 1272/2008 [CLP]   |        |
| ethanol   | EC:200-578-6<br>CAS : 64-17-5<br>Index:603-002-00-5  | >=70 - <90 | Flam. Liq. 2, H225  | [2]    |
| propyl acetate                                    | EC:203-686-1<br>CAS : 109-60-4<br>Index:607-024-00-6 | >=3 - <5   | Flam. Liq. 2, H225<br>Eye Dam./Irrit. 2, H319<br>STOT SE 3, H336  | [1][2] |
| propan-2-ol                                       | EC:200-661-7<br>CAS : 67-63-0<br>Index:603-117-00-0  | >=3 - <5   | Flam. Liq. 2, H225<br>Eye Dam./Irrit. 2, H319<br>STOT SE 3, H336  | [1][2] |

### Type

- [1] Substance classified with a health or environmental hazard
- [2] Substance with a workplace exposure limit
- [3] Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII
- [4] Substance meets the criteria for vPvB according to Regulation (EC) No. 1907/2006, Annex XIII
- [5] Substance of equivalent concern

See Section 16 for the full text of the R phrases or H statements declared above.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

**Occupational exposure limits, if available, are listed in Section 8.**

## SECTION 4: First aid measures

### 4.1 Description of first aid measures

- Eye contact** : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.
- Inhalation** : Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by

- trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
- Skin contact** : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Continue to rinse for at least 10 minutes. Get medical attention. Wash clothing before reuse. Clean shoes thoroughly before reuse.
- Ingestion** : Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
- Protection of first-aiders** : No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

#### 4.2 Most important symptoms and effects, both acute and delayed

##### Potential acute health effects

- Eye contact** : Causes serious eye irritation.  
**Inhalation** : No known significant effects or critical hazards.  
**Skin contact** : Causes skin irritation.  
**Ingestion** : Irritating to mouth, throat and stomach.

##### Over-exposure signs/symptoms

- Eye contact** : Adverse symptoms may include the following:  
pain or irritation  
watering  
redness
- Inhalation** : No specific data.
- Skin contact** : Adverse symptoms may include the following:  
irritation  
redness
- Ingestion** : No specific data.

#### 4.3 Indication of any immediate medical attention and special treatment needed

- Notes to physician** : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
- Specific treatments** : No specific treatment.

## SECTION 5: Firefighting measures

### 5.1 Extinguishing media

- Suitable extinguishing media** : Use dry chemical, CO#, water spray (fog) or foam.  
**Unsuitable extinguishing media** : Do not use water jet.

### 5.2 Special hazards arising from the substance or mixture

- Hazards from the substance or mixture** : Highly flammable liquid and vapor. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. Runoff to sewer may create fire or explosion hazard.
- Hazardous thermal decomposition products** : Decomposition products may include the following materials:  
carbon dioxide  
carbon monoxide

### 5.3 Advice for firefighters

- Special protective actions for fire-fighters** : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.
- Special protective equipment for fire-fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.
- Additional information** : Not available.

## SECTION 6: Accidental release measures

### 6.1 Personal precautions, protective equipment and emergency procedures

- For non-emergency personnel** : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
- For emergency responders** : If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

- 6.2 Environmental precautions** : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

### 6.3 Methods and materials for containment and cleaning up

- Small spill** : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
- Large spill** : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product.

- 6.4 Reference to other sections** : See Section 1 for emergency contact information.  
See Section 8 for information on appropriate personal protective equipment.  
See Section 13 for additional waste treatment information.

## SECTION 7: Handling and storage

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

### 7.1 Precautions for safe handling

- Protective measures** : Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container.
- Advice on general occupational hygiene** : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

### 7.2 Conditions for safe storage, including any incompatibilities

- : Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Eliminate all ignition sources. Separate from oxidizing materials.

Keep container tightly closed and sealed until ready for use.  
Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers.  
Use appropriate containment to avoid environmental contamination.

### Seveso II Directive - Reporting thresholds

#### Danger criteria

| Category  | Notification and MAPP threshold | Safety report threshold |
|---|---------------------------------|-------------------------|
| P5c: Flammable liquids 2 and 3 not falling under P5a or P5b | 5.000 kg                        | 50.000 kg               |
| C7b: Highly flammable (R11)                                 | 5.000 kg                        | 50.000 kg               |

### 7.3 Specific end use(s)

**Recommendations** : Not available.  
**Industrial sector specific solutions** : Not available.

## SECTION 8: Exposure controls/personal protection

The information in this section contains generic advice and guidance. Information is provided based on typical anticipated uses of the product. Additional measures might be required for bulk handling or other uses that could significantly increase worker or exposure or environmental releases.

### 8.1 Control parameters

#### Occupational exposure limits

| Product/ingredient name | Exposure limit values  |
|-------------------------|--|
| ethanol                 |  |
| propyl acetate          | <b>EH40/2005 WELs (1997-01-01)</b> Short Term Exposure Limit 1.060 mg/m <sup>3</sup> , 250 ppm<br><b>EH40/2005 WELs (1997-01-01)</b> Time Weighted Average (TWA) 849 mg/m <sup>3</sup> , 200 ppm |
| propan-2-ol             | <b>EH40/2005 WELs (1997-01-01)</b> Short Term Exposure Limit 1.250 mg/m <sup>3</sup> , 500 ppm<br><b>EH40/2005 WELs (1997-01-01)</b> Time Weighted Average (TWA) 999 mg/m <sup>3</sup> , 400 ppm |

**Recommended monitoring procedures** : If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to monitoring standards, such as the following: European Standard EN 689 (Workplace atmospheres - Guidance for the assessment of exposure by inhalation to chemical agents for comparison with limit values and measurement strategy) European Standard EN 14042 (Workplace atmospheres - Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents) European Standard EN 482 (Workplace atmospheres - General requirements for the performance of procedures for the measurement of chemical agents) Reference to national guidance documents for methods for the determination of hazardous

substances will also be required.

**DNEL/DMEL Summary** : Not available.

**PNEC Summary** : Not available.

## 8.2 Exposure controls

**Appropriate engineering controls** : Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment.

### Individual protection measures

**Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

**Eye/face protection** : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.

### Skin protection

**Hand protection** : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.

**Body protection** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product., When there is a risk of ignition from static electricity, wear anti-static protective clothing., For the greatest protection from static discharges, clothing should include anti-static overalls, boots and gloves., Refer to European Standard EN 1149 for further information on material and design requirements and test methods.

**Other skin protection** : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Respiratory protection** : Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or

- anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.
- Environmental exposure controls** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## SECTION 9: Physical and chemical properties

### 9.1 Information on basic physical and chemical properties

#### Appearance

- Physical state** : liquid  
**Color** : Pink
- Odor** : Not available.  
**Odor threshold** : Not available.  
**pH** : Not available.  
**Melting point/freezing point** : Not available.  
**Initial boiling point and boiling range** : Not available.  
**Flash point** : 12,8 °C  
< 23 °C Not Measured. Flashpoint is estimated to be < 23°C (73°F).
- Evaporation rate** : Not available.  
**Flammability (solid, gas)** : Not available.  
**Upper/lower flammability or explosive limits** : **Lower:** Not available.  
**Upper:** Not available.  
**Vapor pressure** : Not available.  
**Vapor density** : Not available.  
**Relative density** : 0,82
- Solubility(ies)** : Not available.  
**Partition coefficient: n-octanol/water** : Not available.  
**Auto-ignition temperature** : Not available.  
**Decomposition temperature** : Not available.  
**Viscosity** : **Dynamic:** Not available.  
**Kinematic:** Not available.
- Explosive properties** : Not available.  
**Oxidizing properties** : Not available.

### 9.2 Other information

- Volatile.** : 98 %(m) Weight %  
99,81 %(V) Volume %
- VOC %** : 89,98 %(m) Weight %  
93,22 %(V) Volume %
- Coating VOC** : 6,6 lb/gal  
791 g/l

## SECTION 10: Stability and reactivity

- 10.1 Reactivity** : No specific test data related to reactivity available for this product or its ingredients.
- 10.2 Chemical stability** : The product is stable.
- 10.3 Possibility of hazardous reactions** : Under normal conditions of storage and use, hazardous reactions will not occur.
- 10.4 Conditions to avoid** : Avoid all possible sources of ignition (spark or flame). Do not pressurize, cut, weld, braze, solder, drill, grind or expose containers to heat or sources of ignition.
- 10.5 Incompatible materials** : Reactive or incompatible with the following materials: oxidizing materials
- 10.6 Hazardous decomposition products** : Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## SECTION 11: Toxicological information

### 11.1 Information on toxicological effects

#### Acute toxicity

| Product/ingredient name   | Result          | Species | Dose         | Exposure |
|---------------------------|-----------------|---------|--------------|----------|
| Ethanol                   |                 |         |              |          |
|                           | LD50 Oral       | Rat     | 15.010 mg/kg | -        |
|                           | LD50 Oral       | Rat     | 7.000 mg/kg  | -        |
|                           | LC50 Inhalation | Rat     | 20000 ppm    | 10 h     |
|                           | LC50 Inhalation | Rat     | 6 mg/l       | 6 h      |
|                           | LC50 Inhalation | Rat     | 125 mg/l     | 4 h      |
| Acetic acid, propyl ester |                 |         |              |          |
|                           | LD50 Oral       | Rat     | 9.370 mg/kg  | -        |
| Isopropanol               |                 |         |              |          |
|                           | LD50 Oral       | Rat     | 5.000 mg/kg  | -        |
|                           | LD50 Oral       | Rat     | 5.045 mg/kg  | -        |
|                           | LC50 Inhalation | Rat     | 16000 ppm    | 8 h      |
|                           | LD50 Dermal     | Rabbit  | 12.800 mg/kg | -        |
| Silane component          |                 |         |              |          |

**Conclusion/Summary** : Not available.

#### Acute toxicity estimates

Not available.

#### Irritation/Corrosion

Version: 2.6

Date of issue/Date of revision: 18.03.2016

Date of previous issue: 18.03.2016

| Product/ingredient name | Result                   | Species | Score | Exposure | Observation |
|-------------------------|--------------------------|---------|-------|----------|-------------|
| propyl acetate          | Eyes - Mild irritant     | Rabbit  | -     | 24 hrs   | -           |
| propyl acetate          | Skin - Mild irritant     | Rabbit  | -     |          | -           |
| propan-2-ol             | Eyes - Moderate irritant | Rabbit  | -     | 24 hrs   | -           |

**Conclusion/Summary**

**Skin** : Not available.  
**Eyes** : Not available.  
**Respiratory** : Not available.

**Sensitization**

**Conclusion/Summary**

**Skin** : Not available.  
**Respiratory** : Not available.

**Mutagenicity**

**Conclusion/Summary** : Not available.

**Carcinogenicity**

**Conclusion/Summary** : Not available.

**Reproductive toxicity**

**Conclusion/Summary** : Not available.

**Teratogenicity**

**Conclusion/Summary** : Not available.

**Specific target organ toxicity (single exposure)**

| Product/ingredient name | Category   | Route of exposure | Target organs    |
|-------------------------|------------|-------------------|------------------|
| propyl acetate          | Category 3 |                   | Narcotic effects |
| propan-2-ol             | Category 3 |                   | Narcotic effects |

**Specific target organ toxicity (repeated exposure)**

Not available.

**Aspiration hazard**

Not available.

**Information on the likely routes of exposure** : Not available.

**Potential acute health effects**

**Eye contact** : Causes serious eye irritation.  
**Inhalation** : No known significant effects or critical hazards.  
**Skin contact** : Causes skin irritation.  
**Ingestion** : Irritating to mouth, throat and stomach.

**Symptoms related to the physical, chemical and toxicological characteristics**

**Eye contact** : Adverse symptoms may include the following:  
pain or irritation  
watering  
redness  
**Inhalation** : No specific data.  
**Skin contact** : Adverse symptoms may include the following:  
irritation  
redness  
**Ingestion** : No specific data.

**Delayed and immediate effects and also chronic effects from short and long term exposure**

**Short term exposure**

**Potential immediate effects** : Not available.  
**Potential delayed effects** : Not available.

**Long term exposure**

**Potential immediate effects** : Not available.  
**Potential delayed effects** : Not available.

**Potential chronic health effects**

**Conclusion/Summary** : Not available.  
**General** : No known significant effects or critical hazards.  
**Carcinogenicity** : No known significant effects or critical hazards.  
**Mutagenicity** : No known significant effects or critical hazards.  
**Teratogenicity** : No known significant effects or critical hazards.  
**Developmental effects** : No known significant effects or critical hazards.  
**Fertility effects** : No known significant effects or critical hazards.

**SECTION 12: Ecological information**

**12.1 Toxicity**

| Product/ingredient name | Result                                 | Species               | Exposure |
|-------------------------|--|-----------------------|----------|
| ethanol                 |  |                       |          |

**Conclusion/Summary** : Not available.

## 12.2 Persistence and degradability

**Conclusion/Summary** : Not available.

## 12.3 Bioaccumulative potential

### 12.4 Mobility in soil

**Soil/water partition coefficient (KOC)** : Not available.

**Mobility** : Not available.

## 12.5 Results of PBT and vPvB assessment

**PBT** : P: Not available.  
B: Not available.  
T: Not available.

**vPvB** : vP: Not available.

vB: Not available.

**12.6 Other adverse effects** : No known significant effects or critical hazards.

## SECTION 13: Disposal considerations

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

### 13.1 Waste treatment methods

#### Product

**Methods of disposal** : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction.

**Hazardous waste** : The classification of the product may meet the criteria for a hazardous waste.

#### Packaging

**Methods of disposal** : The generation of waste should be avoided or minimized wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

**Special precautions** : This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## SECTION 14: Transport information

| Regulatory information | Proper shipping name          | UN - Number | Hazard classification | Packing group | Additional information |
|------------------------|-------------------------------|-------------|-----------------------|---------------|------------------------|
| ADN                    | Printing ink related material | UN1210      | 3                     | II            |                        |
| ADR                    | Printing ink related material | UN1210      | 3                     | II            |                        |
| IATA                   | Printing ink related material | UN1210      | 3                     | II            |                        |
| IMDG                   | Printing ink related material | UN1210      | 3                     | II            |                        |

|                              |                                  |        |   |    |  |
|------------------------------|----------------------------------|--------|---|----|--|
| DOT (U.S.A.)<br>(Pictograms) | Printing ink<br>related material | UN1210 | 3 | II |  |
| Mexico Classification        | Printing ink<br>related material | UN1210 | 3 | II |  |
| TDG Class                    | Printing ink<br>related material | UN1210 | 3 | II |  |

## SECTION 15: Regulatory information

### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

#### EU Regulation (EC) No. 1907/2006 (REACH)

##### Annex XIV - List of substances subject to authorization

Annex XIV: None of the components are listed.

#### Substances of very high concern:

##### Other EU regulations

Europe inventory : Not determined. Not determined.  
Integrated pollution prevention  
and control list (IPPC) - Air : Not listed  
Integrated pollution prevention  
and control list (IPPC) - Water : Not listed

Aerosol dispensers : Not applicable.

#### Seveso II Directive

This product is controlled under the Seveso II Directive.

#### Danger criteria

|  |
|--|
| <b>Category</b>  |
| P5c: Flammable liquids 2 and 3 not falling under P5a or P5b<br>C7b: Highly flammable (R11) |

#### National regulations

References : - Guide de la loi et du règlement sur le transport des marchandises dangereuses au Canada. Centre de conformité international Ltée. 1986.

#### International regulations

Chemical Weapons Convention : Not listed  
List Schedule I Chemicals  
Chemical Weapons Convention : Not listed  
List Schedule II Chemicals  
Chemical Weapons Convention : Not listed  
List Schedule III Chemicals

15.2 Chemical Safety Assessment : This product contains substances for which Chemical Safety Assessments are still required.

## SECTION 16: Other information

**Abbreviations and acronyms** :

- ATE = Acute Toxicity Estimate
- CLP = Classification, Labelling and Packaging Regulation [Regulation (EC) No. 1272/2008]
- DNEL = Derived No Effect Level
- DMEL = Derived Minimal Effect Level
- EUH statement = CLP-specific Hazard statement
- PBT = Persistent, Bioaccumulative and Toxic
- PNEC = Predicted No Effect Concentration
- RRN = REACH Registration Number
- vPvB = Very Persistent and Very Bioaccumulative

**Key literature references and sources for data** :

### Procedure used to derive the classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

| Classification            | Justification         |
|---------------------------|-----------------------|
| Flam. Liq. 2, H225        | On basis of test data |
| Skin Corr./Irrit. 2, H315 | Calculation method    |
| Eye Dam./Irrit. 2, H319   | Calculation method    |

**Full text of abbreviated H statements** :

|                          |  |
|--------------------------|--|
| <b>H332 (inhalation)</b> | Harmful if inhaled.                                |
| <b>H412</b>              | Harmful to aquatic life with long lasting effects. |
| <b>H318</b>              | Causes serious eye damage.                         |
| <b>H319</b>              | Causes serious eye irritation.                     |
| <b>H225</b>              | Highly flammable liquid and vapor.                 |
| <b>H314</b>              | Causes severe skin burns and eye damage.           |
| <b>H315</b>              | Causes skin irritation.                            |
| <b>H336</b>              | May cause drowsiness and dizziness.                |

**Full text of classifications [CLP/GHS]** :

|                                   |   |
|-----------------------------------|---|
| <b>Acute Tox. 4, H332</b>         | ACUTE TOXICITY (inhalation) - Category 4        |
| <b>Aquatic Chronic 3, H412</b>    | AQUATIC HAZARD (LONG-TERM) - Category 3         |
| <b>Eye Dam./Irrit. 1, H318</b>    | SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 1 |
| <b>Eye Dam./Irrit. 2, H319</b>    | SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2 |
| <b>Flam. Liq. 2, H225</b>         | FLAMMABLE LIQUIDS - Category 2                  |
| <b>Skin Corr./Irrit. 1B, H314</b> | SKIN CORROSION/IRRITATION - Category 1B         |
| <b>Skin Corr./Irrit. 2, H315</b>  | SKIN CORROSION/IRRITATION - Category 2          |

|                        |  |
|------------------------|--|
| <b>STOT SE 3, H336</b> | <b>SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) - Category 3</b> |
|------------------------|--|
