# X2

## COMPACT UV LED INKJET PRINTER

The X2 is an industrial, high-speed UV LED flatbed inkjet printer. It supports uni- or bi-directional CMYK + WW printing and is the perfect choice for single or multi-color printing on promotional products, industrial products, high volume packaging, personalized souvenirs and customized gifts.

The X2 contains all the high quality components of its larger counterpart, the XJET, but in a more compact machine. Equipped with a print area of 20" x 24" and high-resolution print heads, the X2 delivers vivid color and fine detail, while integrating seamlessly with the finest color management and RIP software on the market today. The X2 is capable of printing the entire print area in only 90 seconds!

## STANDARD FEATURES

### INK SYSTEM

- CMYKWW UV LED curable inks
- Highly opaque HD white inks
- Automatic ink supply system
- 1 liter bulk ink system (per color)
- Active negative pressure system
- Automatic print head voltage and temperature control

### PRINT SYSTEM

- Industrial DOD piezo electric grayscale print heads
- Dual UV LED air cooled lamps
- Uni or Bi-directional printing
- Automatic maintenance for purging, wiping and capping
- VDS (Variable Droplet Size) produces sharp images with smoother gradient.
