

## Flexible UV Ink for the XJET & X2

Introducing XFlexx UV LED flexible ink! XFlexx is the most durable UV flexible ink on the market! Stretch, bend, twist, squeeze or fold, XFlexx will not crack or distort. XFlexx is available for the X2 flatbed UV inkjet printer and the XJET for higher volume users.

XFlexx is a game changer in the inkjet printing industry. No longer are you restricted to hard substrates such as plastic, glass, wood and metal. XFlexx allows you the option to print on foam rubber, polyurethane, nylon, canvas, cellophane, felt, etc...Ask your local salesman for details!

### STANDARD FEATURES
